HONGKONG, AUGUST 30th, 1914.

With reference to our remarks in yesterday's issue on the constitution of the Legislative Council in the first instance desired to take no part in the nomination of the Board and that it was only at the request of the Governor that they finally consented to the arrangement embodied in the Bill as read a first time on Monday. According to the original draft the Board was to consist of one of the Judges of the Supreme Court as Chairman, a member to be nominated by the Governor, and a third to be nominated by the unofficial members. It was represented that the Chinese owners of property would probably consider that this constitution was unfair, but that they would say that two out of the three were Government members. The unofficial members of Council, therefore, both on the ground of their personal objection to nominate a member, and on the ground of the Chinese objection, suggested that the Board should be constituted as follows, namely, one member to be appointed by the Governor, one by the property owners, and the third to be appointed by these two. This would have been satisfactory. But for some reason it did not meet with the approval of the Governor, who suggested the arrangement embodied in the Bill, namely, that the Governor should appoint one member (who will probably be the Chief Justice), the unofficial members another, and the property owners the third. In deference to His Excellency's wishes the unofficial members consented to the arrangement. We were under the impression that the change had been made at the instance of the unofficial members themselves, but that not being the case we have much pleasure in withdrawing any reflections our remarks might seem to throw on the propriety of the course adopted by the hon. gentlemen.

With reference to the personal interests of the unofficial members in the embezzlement case, they practically have no interests at all. None of them own any property in the district and none of them, we believe, have personally made any advances on mortgage terms. As to the Companies in which they are concerned, the Hongkong Land Investment Co., Limited, of which the Hon. J. J. Kewick and the Hon. C. P. Chater are respectively Chairman and Vice-Chairman, neither own any property in the embezzlement district nor has any mortgages. The Hongkong Fire Insurance Co., Limited, of which the Hon. J. J. Kewick is a director, is in possession of ten houses of an estimated value of \$20,000. The interest of the China Fire Insurance Co., Limited, of which the Hon. A. McConachie is a director, is represented by two mortgages, one of \$5,000 and one of \$4,000. The Hongkong Canton and Musso Steamship Co., Limited, of which the Hon. E. T. Denham is the Chairman, owns four

houses of a value of \$19,370, are the mortgagees in possession of eleven houses valued at \$20,100, and have mortgages amounting to \$18,000 on eight other houses, making a total interest of \$37,470 only.

In our yesterday's article we suggested that the unofficial members had adopted a mistaken view of their duty, that they no doubt honestly believed that it was their duty to look after the interests of property, and that those interests happened also to be their own. We have to express our regret as regards the last named suggestion, for as will be seen from what has been stated above, their interests in the embezzlement district are infinitesimal. We still think, however, that the proposed constitution of the Board of Arbitration is unfortunate and that it would be better either to revert to the original arrangement or to adopt the suggestion put forward by the unofficial members themselves, namely, that the Governor should appoint one member, the property owners another, and that these two should themselves appoint the third.

How very incomplete and conflicting the various accounts of this apparently, only naval engagement yet fought by the Chinese and Japanese fleets have been afforded subject for much comment. It is to be regretted, on more accounts than one, that the fight should remain shrouded in so much mystery, and that the reticence of the Japanese on the one hand and the glaring inaccuracy of the Chinese on the other should prevent the true facts coming before the public. There are some broad facts which have been established, and these, in brief, are:—On the morning of the 25th July there was an engagement off Yuen, on the Korean coast, between the Chinese cruisers *Chi-guen* and *Kuang-yu*, the despatch boat *Tsue-hiang* being also present, and the Japanese cruisers *Namikaze* and the *Takachio*, the *Yokino* being present, though it is not clear that she took any active part in the fight. It is known for a fact that the *Chi-guen* had her big gun disabled and was otherwise so much damaged that she was compelled to retire from the combat, the result being that the *Tsue-hiang* was captured with treasure on board amounting from Tls. 200,000 to Tls. 800,000. Meantime the *Kuang-yu* was engaged with another vessel, by some accounts the *Takachio*, but according to Chinese statements the *Matsumoto*. The *Kuang-yu* lost her rudder and sustained other damage, eventually sinking, but some of her officers, who escaped, claim that one of the shots from her gun destroyed the bridge of the *Matsumoto*, and killed several officers. It is also alleged that the new cruiser *Tokino* received some damage, which is now being made good at Kure, and that the despatch boat *Yokino* was injured, though no account gives the least hint of how she came by the damage.

Now the Japanese admit that the *Namikaze* was struck by a shot from the *Chi-guen*, though the damage done was trivial, but nothing is said by the Japanese papers of any damage being sustained by the *Matsumoto*, nor is there any mention by the foreign survivors of the *Kuang-yu* of having seen this vessel at the time of the flight of the *Chi-guen*. The *Japan Gazette* makes a broad insinuation that the *Chi-guen* was badly smashed up and went to Yokosuka for repairs, and it may be true that she had been in collision with some Chinese man-of-war, but no actual proof of this has been given. It is now stated by Chinese that the damage to the *Chi-guen* have been made good, a thousand men having been engaged on the work for sixteen days and nights. If this be true it is very creditable to the engineers of the dockyard at Port Arthur, where the repairs were effected. It is also stated that the *Peiyang* Squadron is now coaled and ready to take the sea, and that the Japanese fleet have all cleared out of the Gulf of Pechili, the obvious inference being that the latter are not anxious to meet the redoubtable Admiral Togo. Probably they do not intend to meet him when at a disadvantage. Chinese military and naval commanders always seem to entertain a special desire to coin victories or to turn a rout into a triumph. The gallant Admiral himself asserts that he has several times met men-of-war when arising which when observed hoisted the English or French flag, whereas he affects to believe that they were Japanese, and in future, to intimation, he is going to satisfy himself that these ships are really what they represent themselves to be.

The Japanese naval commanders are, on their part, most extremely anxious to come across this fleet of some twenty Japanese warships went into the Gulf of Pechili, exchanged shots with the *Chi-guen*, *Wei-hai* and *Fort Arthur*, and looked in vain for the vessels of the *Peiyang* Squadron. Where was Admiral Togo on that occasion? If not in hiding in some part of the Gulf, why did he not seize the opportunity to carry out the instructions said to have been given to him to harry the coast of Japan? Surely he must be aware of the vital importance to China of securing the command of the sea. If he can keep the Japanese warships from this costly struggle to an end, for without the command of the Korean Straits the Japanese would be unable to send troops to Korea, and would, in short, soon be reduced to impotence. But Togo has other and higher considerations of his duty and responsibilities as naval commander-in-chief. If he hears a battle and is beaten he would, he argues—so it is said—leave the road to Peking open. Surely, however, he can rely upon the multitude of troops now being moved to hold the road to the Capital against any force the Japanese can send. Togo evidently considers it foolish to risk the loss of a valuable ship which cannot be replaced during the war; he may also think it equally unwise to expose to needless danger a ship so valuable as that of Admiral Togo. At any rate it seems unlikely that any great and decisive battle of strength between the rival fleets will take place if the Chinese Admiral can "avert the conflict." But it is possible that the Japanese Admiral, being less conservative and of a more inquisitive disposition, may yet contrive to bring about an interview with his opponent from which no doubt hopes and expectations

to obtain some solid advantage. Outlookers, however, recognise the fact that a great naval engagement between the two fleets is fraught with uncertainty, as they are pretty equally matched and China possesses the heavier ships.

Colombo is putting in force a quarantine against ships coming from Bombay, where cholera is reported to exist.

The C. P. steamer *Express* of Japan left Yokohama for Hongkong, via Shanghai, on the 23rd inst.

It is reported in official circles at Canton that the authorities propose to stop the circulation of the Japanese flag, but so far no notification to that effect has been issued.

The Government of North Borneo, having offered a reward for any information leading to the arrest of the Japanese, has been informed that the Japanese, who were in the hands of the British, have been released.

The Japanese papers report the death on the 26th inst. of a high rank veteran at Canton named Tse Tsan-chung. The deceased officer was Assistant Commander of the land force of Kwangtung several years ago, and at the time of his death held the post of Commandant at Famen.

The Singapore Free Press says:—We are at last in deference to the Colonial Office desire of putting a new face on our revenues by taxing up and retrenching down, to have our status as Free Port actually abolished. At a glance to the new Spirit duties, we hear of nothing less than a Tobacco Excise Bill as about to be thrown on the Council Table immediately.

Messrs. Lanks and Rogge recently informed us that they have received from Messrs. Wm. G. Hall & Co., Saigon, reading "Eight days' quarantine." This Messrs. Lanks and Rogge read to mean that vessels from Hongkong will be given a quarantine of eight days on departure from Hongkong instead of ten days, as previously. The Government has received a telegram from the British Consul at Saigon to the same effect.

The Import and Export returns of the Straits Settlements for the first quarter of the year, compared with the corresponding quarter of 1913 have been published. The total value of imports and exports for the quarter ended 31st March 1914 was \$24,349,523, as against \$24,651,843 for the same quarter of 1913. The total value of exports for the quarter ended 31st March 1914 was \$13,700,141, as against \$13,959,810 for the same quarter of 1913.

The total exports also exclusive of treasure, gold, and silver, were \$23,877,000, as against \$23,877,000 for the same quarter of 1913. The total imports also exclusive of treasure, gold, and silver, were \$10,572,945, as against \$10,572,945 for the same quarter of 1913.

The Marine Court of Enquiry held at Singapore to investigate the circumstances attending the stranding of the steamer *Nampan* on the 10th inst. delivered the following finding:—We are of opinion that the grounding of the ship was due to over confidence on the part of the captain, who, in the absence of the second officer, was alone in command, and that the ship was not properly positioned on the night of the 10th inst. The captain was found to have been negligent in not having a proper lookout on board, and in not having a proper lookout on board, and in not having a proper lookout on board.

The Singapore Office and Spirit Farm, we learn from the *Straits Times*, has been sold to the present holders at a rental of \$118,000 per month. By the new Ordinances the Government requires the license fee which used to go to the Farm under the old law to be paid to the Government. The new license fee is \$25,000 per month, and the old license fee was \$25,000 per month. At the same time the Singapore Farm has acquired the Johore license fee, which used to go to the Government, and the new license fee is \$25,000 per month, and the old license fee was \$25,000 per month.
